

STREETSKILL

Putting the Brakes on Bad Driving

**MISSED
CALLS
SAVE
LIVES!**

Drink driving puts you and others at risk so does talking or texting while you drive!

Research shows that if you are
talking or texting while driving...

- You are **five times more likely to crash.**
- You are **9 percent slower at hitting the brakes.**
- You tend to drive **way too close to the car in front of you.**

Put down the phone...
A missed call could save a life!
